PROFESSIONAL SUMMARY

IT Associate and Hardware Specialist skilled in enterprise IT support, custom PC building, system administration, and software troubleshooting. Dedicated to maintaining high system uptime, delivering reliable end-user support, and optimizing hardware performance. Available immediately for opportunity across the UAE.

WORK EXPERIENCE

IT Associate — **Hyderabad, Telangana**
Wipro — *December 2024 – May 2026*

- Provided IT support and technical help to enterprise users, keeping downtime low.
- Diagnosed and fixed Windows, Linux and macOS, network, VPN and software issues.
- Managed support tickets using ITSM systems and resolved issues quickly.
- Managed user accounts and access in Active Directory and Microsoft 365.
- Helped with basic script debugging, application testing and system checks.
- Handled system maintenance, workstation imaging, software installations and routine updates.
- Wrote technical documentation and troubleshooting guides for the knowledge base.

PC Builder & Hardware Specialist — **Hyderabad, Telangana**
Apex Systems & Hardware — *August 2023 – October 2024*

- Assembled, configured, and tested custom desktop PCs and workstations tailored to client specifications.
- Conducted component-level hardware diagnostics, stress testing, thermal performance analysis, and BIOS/firmware updates.
- Provided hands-on technical support and software installation services, including OS setup and driver configurations.
- Interfaced directly with customers to troubleshoot hardware failures, recommend upgrades, and deliver end-to-end hardware solutions.
